EXPERIENCE

•Wells Fargo International Solutions Pvt Ltd

Jan - June 2026

Technology Program Intern

Hyderabad, Telengana

- Designed and implemented a React micro-frontend and supported Java Spring Boot microservices for integration testing of banking functionalities within the ULOT Recovery domain.
- Contributed to test automation and performance validation using HyperExecute, JMeter, BlazeMeter, and CI/CD workflows using Harness, and OpenShift Container Platform (OCP).

•Wells Fargo International Solutions Pvt Ltd

May - July 2025

Intern Analyst

Bengaluru, Karnataka

- Developed Insightune: A custom VS Code extension to fetch, visualize, and troubleshoot Microsoft Intune data and logs using TypeScript, MCP Client-Server Architecture and GitHub Copilot Chat.

•ConfidoSoft Solutions Pvt Ltd

May - June 2024

Software Developer Intern

Vadodara, Gujarat

- Developed an AI-powered invoice parser using OCR, attention mechanisms, and RNNs to automate data extraction for accounts payable, minimizing manual effort (Python, OpenCV, NLTK, TensorFlow).
- Built a RAG chatbot using LangFlow for information retrieval and question answering.

EDUCATION

•Malaviya National Institute of Technology, Jaipur, Rajasthan

Nov 2022 - May 2026

Bachelor of Technology, Computer Science & Engineering

CGPA: 9.49/10

•HSC - Navrachana Higher Secondary School, Vadodara, Gujarat

Mar 2022

Central Board of Secondary Education

Percentage: 97.2%

•SSC - Navrachana Higher Secondary School, Vadodara, Gujarat

Mar 2020

Central Board of Secondary Education

Percentage: 98.8%

PERSONAL PROJECTS

•Crop Recommendation via Hybrid Deep Learning on Multispectral Imagery

Oct 2025 - May 2026

Transformer-based hybrid deep learning system optimized with Nature-Inspired Algorithms

- Developed hybrid deep learning models using transformer architectures and SOTA approaches, optimized through Nature-Inspired Algorithms (NIAs) and trained on an in-house curated multispectral imagery dataset, to improve crop recommendation accuracy for yield and income maximization for farmers.

•PlagiarismChecker

Oct - Nov 2025

Semantic plagiarism detection tool using Python, Sentence-Transformers & scikit-learn

- Built a web-wide plagiarism detection system combining web crawling, PDF/DOCX parsing (PyPDF2, python-docx), and semantic similarity techniques (TF-IDF, transformer embeddings) to identify copied and paraphrased content.

•Hostel Complaint Management System

Mar - Apr 2024

Role-based complaint management web app built with Django, MySQL & HTML/CSS

- Streamlined complaint submission and resolution between hostel residents and staff, with role-specific features including login, sign-up, profile editing, and complaint tracking.

TECHNICAL SKILLS

Languages: C++, Python, SQL, JavaScript, Java

Developer Tools: GitHub, VS Code, CI/CD, OpenShift, Kafka, Splunk

Frameworks & Databases: Django, MERN Stack, Spring Boot, MySQL

Coursework: DSA, DBMS, OOP, AI/ML, NLP, Computer Networks, Operating Systems, Blockchain Technologies

Soft Skills: Leadership, Problem Solving, Time Management

POSITIONS OF RESPONSIBILITY

• Student Representative, BTech, Student Welfare Committee, MNIT, Jaipur

Aug 2025 - May 2026

• Student Training Coordinator, P&T Cell, MNIT, Jaipur

Aug 2024 - May 2025

• Captain, Women's Basketball team, MNIT, Jaipur

Aug 2024 - May 2025
